J.C. BLAIR COMPANY COMPLEX, BUILDING A

HAER
PA
31-HWDO,
1-A-

HAER No. PA-241-A

Location: Between Sixth and Seventh streets and Penn and Allegheny streets, Huntingdon, Huntingdon County, Pennsylvania

Date of Construction: 1889

Builder: J.C. Blair
F.L. Olds, architect

Present Owner: Leon Hopkins (Huntingdon Electric Motor Company)

Present Use: Warehousing and retail business

Significance: When first erected, the seven-story Building A, based on H.H. Richardson's design of the Marshall Field warehouse in Chicago, was said to be the tallest structure between Pittsburgh and Philadelphia.

Project Information: In February 1987, the Historic American Engineering Record (HAER) and the Historic American Buildings Survey (HABS) began a multi-year historical and architectural documentation project in southwestern Pennsylvania. Carried out in conjunction with America's Industrial Heritage Project (AIHP), HAER undertook a comprehensive inventory of Blair and Cambria counties as the first step in identifying the region's surviving historic engineering works and industrial resources.

The results of this project have been published in Huntingdon County, Pennsylvania: An Inventory of Historic Engineering and Industrial Sites, (1991), by Nancy Shedd, Sarah Heald, editor and published by HABS/HAER for the National Park Service.

Compiler: Nancy Shedd and Ken Heineman, Historians
Gray Fitzsimons and Kenneth Rose, Editors
